

Early Years Foundation Stage

Whinstone Primary School

At Whinstone, we are proud to offer an inclusive Early Years environment where every child is valued, supported and challenged to achieve their very best. We are ambitious for all learners and believe that every child, regardless of their starting point, can thrive within a nurturing and enabling setting.

Our bespoke, carefully sequenced and progressive curriculum is designed to build knowledge and skills over time. We know that when strong foundations of learning are securely in place, children are equipped for future success both in school and beyond.

We blend high-quality teacher led experiences with meaningful child initiated learning, enabling children to develop independence, curiosity and a genuine love of learning. Through purposeful planning and skilled interactions, we help children develop, consolidate and deepen their understanding across all areas of learning.

Communication and language sit at the heart of our provision, supported by a strong focus on the prime areas and key skills that underpin long-term success. High-quality interactions shape everything we do, encouraging children to think, explore and express their ideas with confidence.

We work in close partnership with parents, valuing their insights and ensuring smooth transitions and continuity in learning. Inclusivity, strong relationships and a commitment to excellence define the Whinstone Early Years experience.
